

Taqi Alden Alshamali

Full-Stack Developer (MERN) || Android Developer

Amman, Jordan | taqidev1@gmail.com | +962 78 972 0693 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate and full-stack developer with hands-on experience across the MERN stack (React, Node.js, Express.js, Next.js, MongoDB) alongside a strong PHP/MySQL and native Android background. Skilled in building secure, multi-role platforms with modern authentication (JWT, Firebase Auth) and cloud-backed data layers (Firebase, Supabase). Combines a security-first engineering mindset with strong client communication and a fast, self-driven learning curve across new frameworks and tools.

TECHNICAL SKILLS

Full-Stack (MERN): React, Node.js, Express.js, Next.js, MongoDB, JWT (authentication & authorization)

Front-End: HTML5, CSS3, JavaScript (ES6+), Bootstrap, React, Next.js

Back-End: PHP (Core & OOP), MVC, Node.js, Express.js

Databases & Cloud: MongoDB, MySQL, SQLite, Firebase (Firestore, Cloud Messaging), Supabase

Authentication & Security: JWT, Firebase Auth, RBAC, Prepared Statements / SQL Injection Prevention

Android: Java (native), XML Layouts, Flutter (Dart), SQLite, Firebase

Programming Languages: C++, C#, JavaScript

Tools & Version Control: Git, GitHub

Core Concepts: OOP, RBAC, Data Structures & Algorithms

SOFT SKILLS

Problem-Solving & Analytical Thinking • Client Communication & Requirements Gathering • Time Management & Deadline Delivery • Team Collaboration • Adaptability & Continuous Learning • Attention to Detail (Security & Code Quality)

EXPERIENCE

Android Developer (Freelance)

- Full-Cycle Android Development: Engineered 5+ native apps using Java, XML, SQLite, and Firebase (Firestore, Storage) from concept to deployment.
- Technical Optimization: Implemented real-time data sync, secure authentication, and offline caching to ensure app stability and responsiveness across various devices.
- Client Collaboration: Gathered requirements and delivered high-impact mobile solutions within strict deadlines, ensuring high client satisfaction.

PROJECTS

EduWave – Virtual School Management System

- Architected a full-stack Role-Based Access Control (RBAC) system using PHP and MySQL, managing secure data access for 5 distinct user roles (Students, Teachers, Parents, Admins).
- Implemented dynamic front-end updates using AJAX and jQuery to improve user experience.

Graduation Project Management System

- Engineered a secure web application utilizing Prepared Statements to prevent SQL injection attacks.
- Integrated an AI keyword matching algorithm to automate supervisor assignments, reducing manual administrative workload by 80%.

AutoParts Jo

- Built a real-time e-commerce Android app using Java and Firebase.
- Implemented FCM (Firebase Cloud Messaging) for order notifications and managed complex data flow using Firestore and Firebase Storage for image handling.

EDUCATION

Bachelor's in Computer Science — Jadara University

Grade: Very Good | February 2021 – February 2026

LANGUAGES

Arabic — Native English — Proficient
